Add exception to invalid certificate
(Mozilla Firefox)

Secure Connection Failed
illa.d.tamu.cc.edu.manowar.tamu.cc.edu uses an invalid security certificate.

The certificate is only valid for manowar.tamu.cc.edu

(Error code: ssl_error_bad_cert_domain)

- This could be a problem with the server's configuration, or it could be someone trying to impersonate the server.
- If you have connected to this server successfully in the past, the error may be temporary, and you can try again later.
